Protect your wealth with **Wealth Assure** whenever your portfolio reaches a new high

Max
Age 41
Non-smoker

Max is a father of two and he is looking to grow his wealth but is concerned about losing investments to market fluctuations.

He purchases **PRU**Vantage Assure II, paying a Regular Premium of S$10,000 p.a. to ensure his wealth is protected in case of his unfortunate demise during a market crisis with its unique Wealth Assure[1] feature and Sum Assured[2] that grows by 3% every year. He allocates 100% of his premiums into a non-dividend paying fund in the Growth Account, with a premium term of 25 years.

Max passes on at age 85 during a market downturn and his beneficiary receives a payout of

S$1.71m[1,3]
(**1.6x** Account Value)

This is a hypothetical illustration to help you understand how the Wealth Assure feature and an increasing Sum Assured works in tandem to provide protection from market fluctuations. This is for illustration purpose only and should not be interpreted as returns from the product. It takes into account all charges and fees payable including 2.6% p.a. administration charge for first 12 years only, continuing investment charge of 1.3% p.a. and cost of insurance where applicable. Please refer to the Policy Illustration for details of the illustrated policy values at the different Illustrated Investment Rates of Return.

[1] We pay the highest of: (a) the Sum Assured; (b) the Wealth Assure Value; or (c) the account value from the Growth Account, plus the account value from the Additional Investment Account, less any outstanding amount payable and withdrawals. **PRU**Vantage Assure II's Wealth Assure Value is subject to a maximum of S$20m or 3 times of lifetime premium per policy, whichever is higher. I [2] The Sum Assured increase does not apply to top-ups or premiums paid for supplementary benefits (if any). 3% yearly increase is based on simple interest and will stop increasing at 160% of the total premiums paid, adjusted for changes in benefits and partial withdrawal, if any. I [3] The actual benefits payable will depend on the actual performance of the underlying assets of the **PRU**Link Fund(s). The actual continuing investment charge will depend on the **PRU**Link Fund(s) chosen and may vary each year.

Create a portfolio designed to endure changing markets

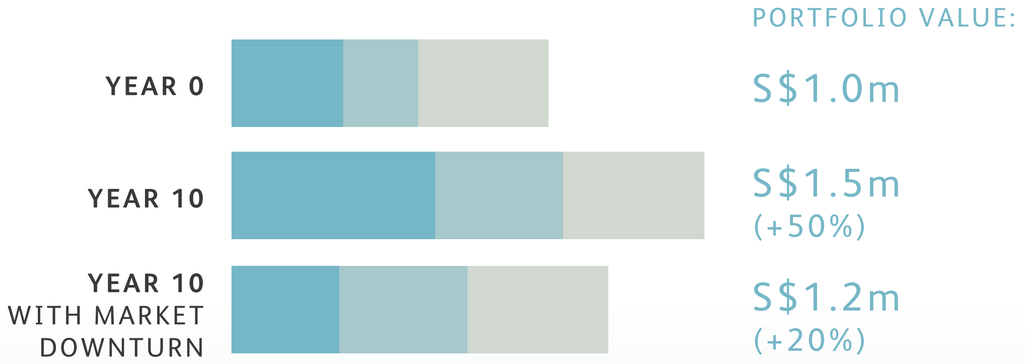

Brenda
Age 40
Non-smoker

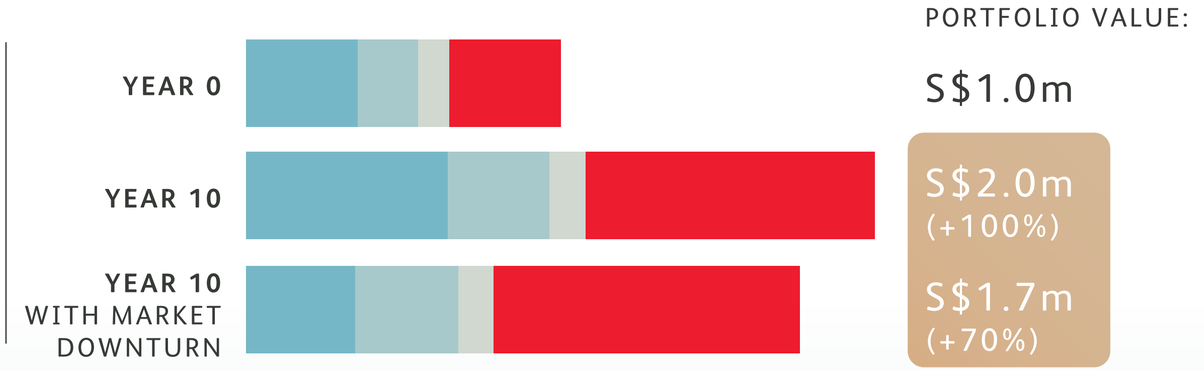

Brenda is an entrepreneur who has made a fortune through her start-up. She is comfortable investing in the markets, although has been holding on to sizable cash to look for new opportunities.

She invests S$350,000 in **PRU**Vantage Assure (SP) to potentially grow her net worth over the next 10 years while helping to protect her family's financial future should she pass away during a market downturn[1].

Original Portfolio

New Portfolio with **PRU**Vantage Assure (SP)

Equities[2] Fixed Income[2] Cash[3] **PRU**Vantage Assure (SP)[4,5]

With **PRU**Vantage Assure (SP), Brenda will be able to capitalise market upturns and navigate downturns with ease by:

Diversifying her investment to grow her wealth by an additional **S$500K**, capitalising on market upward trends.

Protecting her portfolio when she passes away during a market downturn with the Wealth Assure feature, leaving a S$1.7m portfolio value[5] for her family. This is **S$500K**, or **42%** more than her original portfolio.

[1] This is a hypothetical illustration to help you understand how **PRU**Vantage Assure (SP) plays a role in one's portfolio to grow and protect wealth in the event of an unfortunate demise. It showcases how the Wealth Assure feature and an increasing Sum Assured works in tandem to provide protection from market fluctuations, excluding any top ups. This is for illustration purpose only and should not be interpreted as returns from the product. I [2] Investment return is based on the MSCI All Country World Index and Bloomberg Barclays Global Aggregate Index for Equity and Fixed Income respectively for the period from January 1999 to December 2008. Cost of investment is factored in using average annualised Expense Ratio of 0.45% p.a. and deducted on a monthly basis. I [3] Singapore Domestic Savings Deposit Rate is used for Cash. I [4] Based on returns of **PRU**Link Singapore Asian Managed Fund from January 1999 to December 2008. It takes into account all charges and fees payable including 0.8% p.a. administration charge for first 8 years only, continued investment charge assumed to be 1.3% p.a. and cost of insurance where applicable. I [5] The portfolio value of S$1.7m is the total market value for Equities, Fixed Income, Cash and death benefit payable for **PRU**Vantage Assure (SP). For **PRU**Vantage Assure (SP), we pay the highest of: (a) the Sum Assured; (b) the Wealth Assure Value; or (c) the account value from the Initial Investment Account, plus the account value from the Additional Investment Account, less any outstanding amounts payable and withdrawals. The actual benefits payable will depend on the actual performance of the underlying assets of the **PRU**Link Fund(s). The actual continuing investment charge will depend on the **PRU**Link Fund(s) chosen and may vary each year. Past performance is not necessarily indicative of future performance. Important Notes:

You are recommended to read the product summary and seek advice from a qualified Prudential Financial Representative for a financial analysis before purchasing a policy suitable to meet your needs.

As buying a life insurance policy is a long-term commitment, an early termination of the policy usually involves high costs and the surrender value, if any, that is payable to you may be zero or less than the total premiums paid.

PRUVantage Assure Series are Investment-Linked Plans (ILPs) which invest in ILP sub-fund(s). Investment products are subject to investment risks including the possible loss of the principal amount invested. The performance of the ILP sub-fund(s) is not guaranteed and the value of the units and the income accruing to the units (if any) may fall or rise. Past performance is not necessarily indicative of future performance.

If you choose an ILP sub-fund that aims to distribute dividends on a regular basis, please note that the distribution of dividends is at the discretion of the underlying fund's Board of Directors, Manager and/or Prudential Singapore, and is not guaranteed. The distribution of dividends may be effectively paid out of capital, which will reduce the net asset value of the fund which is used to calculate the fund's unit price and the surrender value of the policy.

A product summary and product highlights sheet(s) relating to the ILP sub-fund(s) are available and may be obtained from your Prudential Financial Representative.

A potential investor should read the product summary and product highlights sheet(s) before deciding whether to subscribe for units in the ILP sub-fund(s).
