Important Notes:

You are recommended to read the product summary and seek advice from a qualified Prudential Financial Representative for a financial analysis before purchasing a policy suitable to meet your needs.

As buying a life insurance policy is a long-term commitment, an early termination of the policy usually involves high costs and the surrender value, if any, that is payable to you may be zero or less than the total premiums paid.

PRUVantage Prosper is an Investment-Linked Plan (ILP) which invests in ILP sub-fund(s). Investment products are subject to investment risks including the possible loss of the principal amount invested. The performance of the ILP sub-fund(s) is not guaranteed and the value of the units and the income accruing to the units (if any) may fall or rise. Past performance is not necessarily indicative of future performance.

If you choose an ILP sub-fund that aims to distribute dividends on a regular basis, please note that the distribution of dividends are at the discretion of the underlying fund's Board of Directors, Manager and/or Prudential Singapore, and is not guaranteed. The distribution of dividends may be effectively paid out of capital, which will reduce the net asset value of the fund which is used to calculate the fund's unit price and the surrender value of the policy.

A product summary and product highlights sheet(s) relating to the ILP sub-fund(s) are available and may be obtained from your Prudential Financial Representative. A potential investor should read the product summary and product highlights sheet(s) before deciding whether to subscribe for units in the ILP sub-fund(s).
